

Building a Classroom Web Page

**Todd Rutan
Technology Trainer
DCMO BOCES
Instructional Support Services**

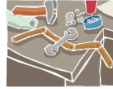

Introductions

**Name
Grade / Subject
What do you want to do with your web
page?**

Agenda

**The Process
Some HTML Basics
Web Site Elements
Using Your Web Page Service
Time to design and execute**

Tool Belt

- Computer**
- Web Hosting Service**
- Digital Camera**
- Scanner**
- Word Processing**
- Image Editing**
- Web Page Building**

HTML

Hyper Text Markup Language
A Standard Set of "Tags" for text and image layout

HTML Document Parts

- **Head**
- **Body**

The Process

- **Plan**
- **Prepare**
- **Produce**
- **Publish (upload)**

A little bit of html

Hyper Text Markup Language

A series of "tags" used to format text, images etc, on the web page

A little bit of html

Exercise

1. Create a folder on the desktop
2. Get a picture from Pica 4 Learning save it in the folder
2. Open notepad application
3. Type the following

```
<html>  
<head>  
</head>  
<body>
```

Hello and welcome to Your name's classroom web page!

Use the following links to get more information

Google

email me with your questions

```
</body>
```

4. Save this file in the folder as well
save as using all files

A little more html

1. Re-pen the file with the notepad application
2. Add the following

```
<body bgcolor="#abd7f2">
```

Hello and welcome to **
<h1>**(Your name's)**</h1>
** classroom web page!**
**

```

```

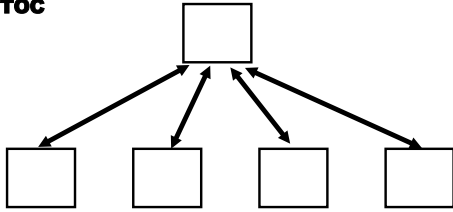

Use the following links to get more information

```
<a href="http://www.google.com/"> Google </a><br>
```

```
<a href="mailto:rutant@dcmoboces.com">email me with your questions </a>
```

Getting Ideas

Look at Other Sites

<http://www.oneontacsd.org/classroompages.cfm>

<http://www.dcseagles.org/>

Prepare

Gather your materials
documents, pictures, links

Be sure images are in the proper
format
GIF
JPEG

Audience

Student Researcher-Links

Parents

Admin. Prof. Peers

Employer

Community - Alumni
